

# Star Trek 101: Voyager Syllabus

Spring 2020

Instructor: Barbara Givens      Email: [brbrgivens@aol.com](mailto:brbrgivens@aol.com)

Class Time: Wednesday, 11AM -12:45PM   Paradise Campus

## Course Overview

This class will concentrate on the continuing series of the science-fiction genre of STAR TREK entitled 'VOYAGER'. This will be a continuation from the previous series of Star Trek.

The series is thought provoking and insightful with stimulating morality plays, social issues and current world forces that were at play.

It was the forth in a series of six of a franchise that is now fifty-five years into production. The franchise has been internationally acclaimed and has grown steadily with tens of thousands of fans found around the world.

We will discuss writers, directors, producers, actors and behind the camera chaos!

Mainly, it will be the story lines that are of brain-stretching interest.

They explored many of the present day issues without the censors as the problems belong to aliens!.

It has proven to be a 'Mecca' for celebrities who saw their fame cemented into the entertainment industry with a role in a STAR TREK episode!

Discussions, suggestions, points of view, opinions and judgmental critiques will be part of the class. (show no mercy)
