I first discovered OLLI when a former director made a presentation to the Henderson Senior Citizens Advisory Commission. When he passed around the summer schedule I saw that there were classes on art history, and there were classes on music. I thought, "Oh, wow! This looks like fun!" I almost wished I was retired so I could take those classes. In fact, it was just a few weeks after that meeting that I decided to retire, and OLLI was a great incentive for me to reach that decision.

It was spring semester when I started and, of course, the offerings in the spring are far more extensive than in the summer, so I saw that there not only art and music, but there was also history. I signed up for several classes and dove right into learning.

Eventually I worked up the courage and decided to teach a class. When I started teaching art history, it became as if I were an art history major, and I just love the art that I've gotten into. I feel is if I'm appreciating my college education more than I ever did before. It's so great to have the opportunity to interact with people that not only share my interests, but are probably smarter than me, which is stimulating, fun, and exciting.

Within my first semester, I was recruited to get involved as a committee chair. For some time, I have been the fundraising committee chair; I am now also the vice chair of the steering council. I have nonprofit experience. Nonprofit is different from the for-profit world. I knew that my nonprofit experience could help OLLI. But also, I'm a fundraiser, and when I'm committed to an organization, (and I'm really committed to OLLI) I like raising money for it, and advocating for it. In leading our phone-a-thon, I hope I have helped other OLLI members express their enjoyment and support for OLLI and push themselves out of their comfort zones to appreciate this kind of advocacy.

I am really thankful for that first presentation where I learned about OLLI. It opened up opportunities for me to learn from my peers, teach a subject that I love, and give back using a skill set that I developed during my career. I'm glad I can give back to the organization I have come to love in my retirement.

About OLLI at UNLV

The Osher Lifelong Learning Institute at the University of Nevada, Las Vegas (OLLI at UNLV) is a member-driven learning community of more than 1,800 retired and semi-retired adults. Our members continue a lifetime of learning by contributing to a program rich in content, shared interests, and life experiences. In addition to our regularly scheduled classes, OLLI at UNLV offers a variety of special events, shared interest groups, and other member activities. Our community is comprised of individuals from all backgrounds, there are no education requirements to participate in classes and activities—simply a desire to share and construct knowledge. Each of our classes is led by OLLI at UNLV volunteers who bring a lifetime of personal and professional experience and passion to their classrooms. Our volunteer-led classes cover a wide range of topics at both our UNLV Paradise campus and multiple satellite locations throughout the Las Vegas valley. For more information about OLLI at UNLV and how you can take advantage of the $90 fall or $175 annual membership, please call 702-774-OLLI (6554).

STEEERING COUNCIL CHAIR MESSAGE

By now, we are all used to the new reality: mandatory masks, social distancing, and physical isolation. This isn’t going to change for the foreseeable future, putting a real damper on the OLLI that we know and love. While I have really missed the social aspect of OLLI, it is important that we all continue to stay safe and healthy.

The good news is that when we were shut down in early March, our administrative staff pulled off a minor miracle and converted many of our classes to an online format so that we were able to view and participate from home. Through the balance of the spring semester, 86% of our spring membership continued to participate in our online offerings. Several hundred members participated in this summer’s online content, with good reviews. The operative word for the future is Zoom. Zoom is the application we will use for our online classes. Zoom is an interactive platform that will allow you to not only view material, but also ask questions, participate in discussions, and interact with your classmates. OLLI is providing training and resources to make Zoom easy to learn. I know it’s different from what you are used to, but it’s fun to see old familiar faces and make new friends despite limited in-person classes.

So until we are able to go back to some form of the “old normal” when we can see each other in classrooms, the coffee room, the computer lab, and our satellites, I look forward to seeing your smiling face on my computer screen this semester.

Sincerely,

John Birkland, Chair

Learning with Zoom

What is Zoom?
Zoom is a video conferencing platform that is highly recommended by the Osher Lifelong Learning Institutes National Resource Center and the National Association of Area Agencies on Aging.

Zoom allows instructors to present their screens and host interactive discussions. While we hope to return more in-person classes to campus as soon as feasible, Zoom classes are a great way to keep our members learning and connecting in the meantime!

Equipment Needed:
At the most basic level, all you need to use Zoom is a telephone, such as a smartphone or landline. However, if you have access to a computer or mobile device you can use the full capabilities of Zoom. The following equipment will enhance your experience but is not necessary:

Web camera: A camera will increase your connection with your instructor and your peers by allowing you to see each other face-to-face. If you do not have access to a web camera, you will still be able to see the instructor.

Headset with a microphone: This will let you hear and be heard more clearly. This does not need to be fancy equipment, it can be the same as the headphones you might use with your phone.

Charger: Charging your device during class will ensure that you do not have an unexpected power outage interrupting your learning.

How to Join A Zoom Discussion Group:
You will receive a Zoom link for your upcoming OLLI at UNLV class(es) via email. Copy and paste that link into your web browser OR click on the link to enter the digital classroom. Every week the group meets, you will use the same link.

A Zoom account isn’t required to attend a discussion group. Anyone can attend a class session using their laptop or desktop (Windows or Mac), tablet, or smartphone (iPhone or Android). If you haven’t used Zoom before, leave about 5 minutes to set it up before your first use.

Need help connecting or troubleshooting?
We will have Member Zoom Orientations August 24-September 4; you may register for one of these during Individual Class Selections.

View an instructional video about joining Zoom and find troubleshooting advice at olliatunlv.wixsite.com/fall2020/zoom. The OLLI at UNLV administrative team is available during office hours at 702-774-6554.

Zoom hosts daily live training webinars, offers quick start guides, and provides answers to frequently asked questions via their Help Center: support.zoom.us/hc.

YELLOW BRICK ROAD TO THE WHITE HOUSE
Once again we find ourselves on that never-ending “Yellow Brick Road” to elect the next President of the United States. Since before the 2016 election the rhetoric has magnified the divisions among us and politicized every aspect of our lives. Is this the “new normal?” Our studies will focus specifically on the history of presidential campaigns in America, the shifting themes that dominated them, the political fights that drove them, and the rhetoric that sold them to the American public. Historic videos and audio/visual examples will show us that the choices voters make at the polls are influenced by the major national and world events experienced in their lifetimes. We will evaluate how well candidates were able to appeal to popular sentiments. We will also look at some of the dirty tricks, cheap shots, scandals, and “October surprises” that have colored presidential campaigns from the very beginning. We will assess the personalities, strengths, and idiosyncrasies of the tin men, scarecrows, and lions who have emerged to lead us through times of war and peace, cycles of cultural and financial upheaval, withdrawal from the world stage, and astonishing periods of expansion and growth. Some have risen to the challenges while others have faltered. Nonetheless, their presidencies have served to define our nation as well as our place in the world. By the end of the course, we will see that certain political themes continually re-emerge and will question whether or not there are lessons to be learned from their re-emergence. We will also explore how these patterns might relate to our current political environment, and the events occurring under our watch. Finally, we will see that our political life exists on a pendulum. As unsettled as we may be feeling right now, America spends more time in the middle than at the extremes.

Paradise Campus
Monday, September 14 - November 16 10 week class
TIME: 9-10:45AM

Instructors: Linda Edgeworth is a senior consultant specializing in domestic and international election law and administration. She has led international observation missions, performed election analyses, and provided direct assistance to election management bodies in 39 countries. In addition to her accomplishments around the world, she has also consulted in several states and counties in the United States. She has offered this course at OLLI for two semesters, updating the course to meet current events and controversies. Tony Kouffman has a B.A. and M.A. in political science and history. He spent 30 years in the apparel industry, manufacturing women’s and children’s clothes. He has been an enthusiastic member of OLLI at UNLV since 2006.

Community health is at the forefront of OLLI at UNLV’s lifelong learning community. Throughout the semester, members can enjoy in-person and online classes on a variety of topics to promote well-being.
EXPLORING & MAPPING THE WORLD CONTINUED

From ancient flat-earth models to modern high-definition satellite images of the planet, all civilizations have explored and modeled their idea of the world. Humans throughout history have sought to understand their spatial environment, from ancient Babylon to our modern space age. Become familiar with the art, science, and evolution of cartography as we examine the most influential and unique maps in human history. Great Courses videos will illuminate the drama of exploration, and we will see what history’s most epic adventures meant for the collective understanding of the earth and sky across time. We will delve into the motivations behind human exploration such as greed, curiosity, faith, fame, and power. And we will have fun expanding our modern geography knowledge with geographic anomalies, trivia, and a custom-made Geo-Bingo game. This course is geared both to those who are continuing from last Spring and to those who are brand new to the class.

UNDERSTANDING ISLAM THROUGH THE LIFE OF ITS MESSENGER
Mohammad is universally known as the founder of the Islamic faith—the religion of submission to the will of God. Prophet Mohammad is undeniably one of the greatest figures in human history even to the non-Muslim, perhaps more today than ever. Even apart from any question of religious belief or faith, there are immediate benefits in learning about the prophet of Islam and his contributions to the world. Prophet Mohammad is described by Muslims as the walking Quran as his life, actions, and words were an embodiment of the holy Quran. With all the Islamophobia rhetoric and criticism of Shariah law coming from some American leaders, most Muslims assume the United States does not have a clear understanding of—or respect for—Islamic faith, history, and traditions. A thinking citizen of the world can hardly develop a rational and mature social consciousness without considering the life of the prophet the message he brought, and its meaning to the Muslim community. With the fall of communism it has become particularly clear that global peace, order, and self determination cannot be achieved without intelligent respect for Islam and the alienable right of Muslims to live their religion.

Dr. Eddeebbarh has been a social activist and religious leader. He has traveled around the globe and has special interest in educating the Muslim community about the importance of Masjid Al-Aqsa. He has worked since his arrival to the U.S. in 1979 on promoting accurate understanding of Islam and Muslims. His passion is to work with others in the faith community to nurture a pluralistic environment.

“JIDAIGEKI” FILMS OF AKIRA KUROSAWA
Examine seven of the “jidaigeki” or “samurai/costume films” of the Japanese director Akira Kurosawa. We will begin the class with a short biography of the director and the state of film making in Japan at the end of WWII. We will look at Kurosawa’s films in chronological order, allowing time to discuss each film and place it in context of its historical milieu. Insights from film historians and critics on the director’s work and Kurosawa’s importance in world cinema history will broaden your understanding. Since some of these films are longer than 90 minutes, we will view them over more than one session, stopping the film to allow discussion and then continuing the film at the following session. The films will be shown in the original Japanese language with English subtitles. The scheduled films are: The Men Who Tread on the Tiger’s Tail (1945); Rashomon (1950); Seven Samurai (1954); Throne of Blood (1957); Yojimbo (1961); Sanjuro (1962); and Ran (1985).

Best practices for classes and meetings

- Be aware of your background and lighting. If possible, try to have light in front of you, rather than behind you.
- Try to have a neutral calm background, clear of distractions.
- Turn your microphone off until you would like to speak as background noise can be distracting.
- Make sure to turn off or silence your cell phone, just like you would during an in-person class.

IN SEARCH OF PARADISE: A WALK THROUGH AN ENGLISH GARDEN

In 1650 English essayist Francis Bacon wrote, “God almighty first planted a garden; and indeed, it is the purest of human pleasures...men come to build stately sooner than to garden finely; as if gardening were the greater perfection.” Trace 1000 years of British garden history from its earliest beginnings through the 18th century. Perfecting the art of gardening has been an active pursuit of many civilizations, though none have worked at it so long or so diligently as the British. Medieval monastic gardens cultivated medicinal and edible plants in practical yet beautiful layouts. In the late 1500s, two of Queen Elizabeth I’s most trusted advisors competed for her favor by creating sensational garden works of art inspired by French and Italian pleasure gardens. By the mid-18th century English gardens became less formal and more naturalistic, a trend led by Lancelot “Capability” Brown, a master landscape gardener. England’s great landscape parks owe much of their present character to Brown; under his influence, English gardens took on a back-to-nature look with acres and acres of rolling lawns, trees, and streams.

PARABLES OF TODAY: USING POP CULTURE TO UNDERSTAND CHRISTIANITY

Jesus used stories, “parables,” to help his followers remember his teachings. His tales of The Good Samaritan and The Prodigal Son are considered two of the most popular short stories of all time. Intentionally or not, all forms of pop culture contain lessons which help us understand Jesus’ teachings today. Members will not only enjoy watching these examples (popcorn has appeared in the past and multiplied, like Jesus feeding the 5,000), they also will learn how to discern parables on their own.

WARRIORS, QUEENS & INTELLECTUALS
Study the history of the pre-modern world through the little-known stories of influential female political, intellectual, religious, and military leaders. Great Courses lectures delivered by University of Wisconsin-Green Bay Professor Emerita Joyce Salisbury will examine the lives of extraordinary women who defied gender restrictions in male-dominated spheres and whose influence persists even today. Starting in an era of Pagan morality with Julia, the daughter of Roman Emperor Augustus, this semester winds itself around the Roman Empire to such places as modern-day Italy, Britain, Syria, Serbia, and Turkey. There is a short detour to Vietnam under the Han (Chinese) Dynasty. Professor Salisbury’s lectures follow 36 women before 1400; we will examine the first ten. Each week’s lecture will be augmented with puzzles, group quizzes, activities, and information on the times in which each woman lived.

In this summer course, students will continue to view extensive selections from the East Building’s displays along with the movements they represent. The lectures cover movements that dominated the second half of the 20th century. The material is intermediate level. WHAT TO BELIEVE: CRITICAL THINKING & THE SCIENTIFIC METHOD

Scientific Skepticism gets a reboot for the era of “fake news.” We will look at how we think and analyze information to reach conclusions about what is true or real. We will explore techniques used by those who wish to influence us to buy their products or ideas. The goal is to gain confidence evaluating information and coming to your own rational conclusions. Each week we will look at a new topic. For example: What is Fake News? Are GMOs harmful? Are ghosts real? Do vaccines cause autism? Are crop circles created by aliens or pranksters? Are eyewitnesses reliable? Why do people continue to believe nonsense even when presented with the data? We will do demonstrations whenever possible. There will be a strong emphasis on psychological processes and the scientific method. We will also look at how logical fallacies can lead us astray. Of course, the final decision about what is real or true will always be left for each individual to decide for him/herself.

FILMS OF THE COLD WAR

In the wake of World War II, America grew troubled by the growing threat of Communism. Hollywood, for its part, helped to market and promote anti-Communist sentiment to the American public. However, as the Cold War dragged on, there were also filmmakers who pushed back against the prevailing narratives. In this class, we will survey a range of films from the 1950s and 1960s that helped shape the American vision of the Cold War. From such B-movie classics as Invasion of the Body Snatchers to the taut political thrillers of John Frankenheimer (Seven Days in May, The Manchurian Candidate) and Stanley Kubrick’s anti-war masterpiece Paths of Glory, we will discuss the varying perspectives that Hollywood filmmakers brought to the tense national conversation surrounding the Cold War.

SPORTS BUSINESS

Las Vegas has added four professional sports franchises to its roster in quick succession, joining minor league baseball and UNLV’s NCAA Division 1 squads. Our long-standing minor league baseball team has re-branded into the Aviators and set attendance records at its new home field. Suddenly, we have many more games, a new arena and two stadiums, over 250 pro athletes, coaches, and staffers, plus additional media, hype, tax revenue, and exposure for our city. There is a lot going on away from the ice, the court, the pitch, and the $1.9 billion stadium. Can a market this size—with all its uniqueness and diversions—sustain so many teams and events? What’s going to happen now that the Raiders have arrived? Each class, examine the business behind our new and old teams and look at the inner workings that few fans ever think about. See how each team targets both residents and visitors in the Vegas market. Get to know who the local sports business “players” are. We will also discuss the big stories on the national sports business scene.

STAYING YOUNG AS OLD AS YOU CAN

Create a healthy relationship with aging. The prevailing stereotype is that elder people are asexual, intellectually rigid, forgetful, invisible, and angry about succumbing to years that define loss and defeat. We will frame aging as something far different: aging is a transformational process as full of wonder and beauty as any other stage of the human journey. Explore lessons on diet, lifestyle, happiness, and human connection from the world’s “Blue Zones,” where people live the longest and thrive in their senior years. DEMENTIA DISCUSSIONS
We are all touched by dementia—a condition that affects memory, thinking, behavior, and the ability to perform everyday activities. Chances are that at our age we either have dementia, are a caretaker to someone with dementia, or have a family member or friend who has dementia or takes care of someone with dementia. The number of people living with dementia worldwide is currently estimated at 35.6 million. This number is expected to double by 2030. Learn about the various diseases that cause dementia, local services that are available to patients and caregivers, ongoing research, effective therapies, what you can do to improve your brain health, important plans that need to be made as a patient and caregiver, as well as what it is like to work and live with dementia. We will hear from experts from leading-edge institutions such as the Cleveland Clinic: Lou Ruvo Center for Brain Health, the Alzheimer’s Association, the UNLV Department of Brain Health, and Nevada Senior Services. The driving motto for this class is “Knowledge is Power;” the more you know about dementia and its ramifications, the better you will be able to cope with it if you are diagnosed with dementia, cope with it if you are a caregiver to someone with dementia, and better understand what people with dementia or their caregivers are experiencing. Also you will come to understand that dementia is not an end to life. There are people who are living rich fulfilling lives even with a diagnosis of dementia.

THE ART OF DRAWING FOR BEGINNERS

To begin the class journey, show up ready to glean information that you can use in any art project that you choose to try. We will cover the basic strokes, the use of a math compass, one-point perspective, and the grid. At the end of the term, you will be able to integrate all of the methods that you have learned into your own creative projects. The supplies needed for the class will be discussed during the first class meeting.

Instructors: With a few semesters now under his belt, Johnny Law is finally feeling a bit more comfortable in the art communities of OLLI and Las Vegas. Law has been honored with several notable awards for Las Vegas, North Las Vegas, and Henderson. He is most proud of a project displayed at Las Vegas City Hall on the walls of Carolyn Goodman’s private gallery. Law’s unique teaching style and emphasis on creativity make his class an ever-changing work in progress. He encourages class participation and has a strong focus on self-expression. Rita Ballejos has lived in Las Vegas for 18 years. She retired as a master cook at various hotel/casinos along the Las Vegas Strip. Since retirement, it has been her new passion to share her wealth of self-expression for art with the OLLI at UNLV community. For the past five years she has been taking various art courses and has become well-known as an artist in the OLLI at UNLV art community. With her newfound knowledge as a multi-media artist, it is time for her to share her special love for pen and ink.

WRITER’S CRITIQUE, INK

Have your writing read and critiqued by your peers! Class participation will include both reading your work and providing positive feedback and editing suggestions for the other members of the class. Writers will have the opportunity to present their work at least every other week. Each member will provide enough copies, double-spaced, of two to three pages of their work to distribute to each class member, allowing written critique to supplement the oral discussion. Fiction, non-fiction, poetry, essay, or editorial—all forms can be presented for review. Evaluation will be for both content and grammar, with positive praise and constructive criticism included.

His eclectic interests, creativity, and academic background served him well as VP of Systems and Software Engineering for a consulting firm, where anti-submarine warfare, kidney dialysis, Naval war games, and the human-machine interface were among his areas of expertise. As of 2015 he is a full-time writer.

ANCIENT SITES & STORIES

Archaeologists study human culture in historic and prehistoric times by examining the material remains of early human settlements. These remains range from the noble (temples, palaces, tombs) to the quotidian (artifacts of daily living) to the humble (garbage pits). In this class we will dig (metaphorically!) into ancient sites around the world and re-experience the wonder of their discoverers. Beyond physical remains, though, every site conveys a multi-faceted story: Who were these people? Why did they settle here? How did they make a living? What were their political systems, their religious practices, their pastimes, their relations with other communities? More broadly, we may see how each site contributes to the grandest story of all: how did we progress from a tribe of naked apes to the global culture of today?

Instructor: Art Fournier encountered computers at Nerd Central (also known as MIT) in the 1960s, and went on to a career creating and maintaining software for the Air Force, private companies, and municipal government. Information technology has evolved so fast, however, that he has no clue what is wrong with your laptop. Fournier has been a Las Vegas resident for forty-plus years, qualifying him as a native by local standards. Ever the dilettante, he is delighted that OLLI at UNLV makes it possible to explore a wide range of topics without doing any actual work.

THE VIETNAM ERA 1968 - 1975

The twentieth century was a time of great progression and great upheaval. It was also a century of political unrest and warfare. The United States was involved in two world wars, as well as smaller skirmishes throughout the world. The country was immersed in a “cold war” after World War II that precipitated another major conflict in Korea. Vietnam was a catalyst for the most unprecedented military and political unrest since the Civil War of the 19th century. This course will explore the Vietnam War’s military, political, and cultural effects on the population of the United States.

**COMPASSION: ETHICS FOR A WHOLE WORLD**

We live in a time of rapid change. The experience of a worldwide pandemic has given us pause. The world is not as safe as it once seemed; we see divisions among people, hostility toward those who are different from us, and uncertainty about the future health of our planet. We also witness countless people who envision a better world and whose actions bear witnesses to the best of humanity. What is it that motivates us to selfless or selfish action? Is there a common thread that moves us toward being our best self? Compassion in its many forms is a powerful force for good in the world. Can it change us? Can it save us? Through lectures, videos, readings and class discussion, explore what it means to be human, what unites us, and how we can create a world that has compassion as its compass and promise. The Charter for Compassion will be used as the starting point of our study. We will also draw from The Road to Character by David Brooks, Beyond Religion: Ethics for a Whole World by His Holiness The Dalai Lama, and Twelve Steps to a Compassionate Life by Karen Armstrong.

She ended her working career first as a chaplain and then the executive director of Hospice Services of Lake County. Three years ago Koot returned to Las Vegas.

**CONSPIRACY? JFK**

There are few dates in American history that evoke stronger feelings than November 22, 1963. You may not be a conspiracy theorist, but 81% of the American people believe that there was a conspiracy in the assassination of JFK. Over 50 years later, does it really matter who pulled the trigger, for whom, and why? Will we ever know the truth? Since that date, we have been living in a surveillance state where the government knows our every move and conversation. Join us as we examine this tragedy by exploring the dark forces that were at work on that date. We will review a variety of data including films, acoustic, medical, ballistics, and other technical analyses of the available evidence and official reports. Some autopsy photos will be shown. Students will be encouraged to share their own theories of the events of that fateful day. Guest speakers will be included in the lectures.

**JUDAISM’S GIFTS TO THE WORLD**

By most indications, modern society is a model of moral progress. Yet when it comes to everyday values, we still grapple with the big ones: What are our responsibilities toward the less fortunate? Join us to unpack six of the world’s most cherished values and how they were delivered to humankind by the Torah. By tracing their fascinating journey to the mainstream, we will discover a timeless core of purpose, integrity, and clarity in each value—a powerful gift of guidance as we navigate our own daily choices.

THE TWILIGHT ZONE’S ONE HOUR EPISODES: IS LONGER BETTER?
In 1963 the Twilight Zone’s fourth season changed to a one-hour show for its 18 episodes. The new format offered twice the story and a chance to explore ideas in more depth. But was it a change for the better? The experiment lasted only one season before reverting back to a 30-minute time slot. We will watch a selection of the one hour episodes and discuss the stars, and story lines, and why the writers and producers extended the show’s length.

Guided writing prompts and interactions with peers will get your creative juices flowing. Write for 2-3 minutes on each prompt, and share your thoughts with the group if you are up for it.

THANK YOU, DONORS!

For six years, the Phone-a-Thon has been a valuable asset for growth for OLLI at UNLV and our members. This year, we raised over $30,000 due to the generosity of our more than 400 donors and 40 volunteers making calls, sending thank you cards, and helping out behind the scenes. These donations not only enhance the OLLI member experience, but also demonstrate a commitment to our lifelong learning community and its continued success. The annual fundraiser is a unique collaboration among OLLI’s membership, the administrative team, and the UNLV Foundation, helping cement the relationship between our institute and the university as a whole.

Besides serving as OLLI at UNLV’s largest fundraiser, the Phone-a-Thon also serves as a strong community builder for the members and administration. We receive overwhelmingly positive feedback each year from its enthusiastic members. For our volunteer leaders, this is a chance to talk to members they haven’t seen in a while, and get to know new people, and hear their experiences as well.

Phone-a-Thon donations have a tremendous impact on our learning community both in and out of the classrooms. Most recently, Phone-a-Thon donations funded the renovation of our coffee room and computer lab, the addition of our member library, classroom tables for Room 133, technology upgrades, and member scholarships. Now more than ever, we continue to need your help to keep OLLI strong throughout the pandemic. Please look for more information to come in the semester about how to give, and how to get involved.
Donor Spotlight: Elise Hanseman

Special thanks to Elise Hanseman. In 2009, Elise won a competition through Humana for a $10,000 gift to the OLLI at UNLV building fund. This year, Elise dedicated that original donation to cover a substantial portion of an upgrade to our classroom microphone and sound systems. After much thought and discussion, Elise wanted to ensure that the donation was used to the benefit of the entire OLLI at UNLV membership and could serve us here in our current location, but continue to serve us when we are at last in a newer facility. The previous analog microphones were becoming obsolete, and as such, repair and replacement parts were becoming difficult. The new microphones are digital, compatible with our current classroom configurations, and the systems are much more expandable than the old ones. Further, the rechargeable microphones eliminate the cost and waste of the hundreds of AA batteries that were required in the old system. Please join us in showing our gratitude for Elise!

Join us this fall as a Phone-a-Thon volunteer to call your fellow members, write thank you notes, or organize incoming pledges and donations. Volunteering is a great way to continue giving back to our lifelong learning community. To sign up, please email olliatunlv@unlv.edu.

WE APPRECIATE YOUR SUPPORT!
Beginning of Semester Tips

We are thrilled you have chosen to join the community of learners at OLLI at UNLV. For those who are joining OLLI at UNLV for the first time, welcome! For our returning members, it’s great to have you back for another great semester. Here are some best practices to make your first few weeks stress free. Please do not hesitate to schedule an appointment with the OLLI at UNLV administrative team by calling 702-774-6554 or emailing olliatunlv@unlv.edu.

FIRST DAY CHECK LIST
We suggest packing the following items before you come to campus:

- OLLI at UNLV parking permit, secured inside passenger side of your front windshield
- Name badge (Please keep this badge! It is good for all semesters; you will receive replacement stickers in the mail for future semesters)
- Membership handbook
- Notebook and pen if you choose to take notes in class

For in-person classes, members should arrive about 15 minutes early to familiarize themselves with the campus and find their classroom. Please note the member coffee room will be closed this fall semester. For online classes, members should prepare their home environment for class, remove distractions, and arrive at least 10 minutes early for the virtual classroom.

PARKING
An OLLI at UNLV parking permit is included with your paid membership. The pass must be displayed on the passenger side of your front windshield, with dates and permit number clearly visible to all university staff. A lost parking permit may be replaced for $25. The OLLI at UNLV parking permit allows you to park in any “student” spot on any of the UNLV campuses. Be forewarned that parking in a “staff” or “reserved” spot will result in a ticket.

If you require disabled parking accommodation, please visit the UNLV Parking & Transportation Services Office, 702-895-1300. Bring your current state issued parking placard along with the letter received from the DMV and a form of identification to obtain the sticker allowing you to park in designated spaces on campus. This sticker must be affixed to your parking pass and displayed on the passenger side of your front windshield.

LOST & FOUND
Lost and found items will be submitted to the UNLV Department of Police Services. To contact them for any lost items, please call 702-895-5795
