When I retired from Michigan, my husband wanted to golf and bowl, but I wanted to take courses. The classes I found were mostly arts and crafts, and not what I was looking for. So, I was delighted to read in the paper about a program they were starting at UNLV called EXCELL. I went to the first meeting and signed up for two classes.

Each semester the program grew. We had more people and more classes. I taught two classes on main campus - one on mystery writers, and another on women who made a difference. Later, I became acquainted with the Great Courses DVD series, and I liked them so much, I taught from them on a variety of subjects. So far, I have taught 31 classes for OLLI at UNLV. I usually teach art history, but I have also taught Broadway musicals, best sellers, forensics, medical myths and even geology. I am not a one trick pony! One of my students this year asked if there is anything I can’t teach.

In Michigan, if I met someone new every five years, that was a lot. At OLLI at UNLV, every day I can meet someone new who has very different life experiences and therefore fresh viewpoints. This lets me expand my own consciousness. By offering a wide variety of classes. I learned I can attract different types of students. As I get to know them, I find they ask really different questions. For 28 years and counting, OLLI at UNLV has given me the chance to explore things that I didn’t learn in school or in my career. OLLI has been so meaningful to me, that I have included OLLI at UNLV in my trust so I can help ensure the program will be here for many years to come so that others can enjoy learning here as I do.

At OLLI I am doing something for myself. Life is a book. Every chapter you go through, something different happens. You never know what’s going to be in that next chapter. I’m fortunate to have had good health so that I can spend time here.

 Bernard and Barbro Osher

OLLI at UNLV is Made Possible by The Bernard Osher Foundation

The Bernard Osher Foundation is a philanthropic organization that supports higher education and the arts. The foundation supports a growing national network of over 124 lifelong learning institutes for retired and semi-retired adults within colleges and universities.

This network of Osher Lifelong Learning Institutes (OLLI) brings the joy of learning and personal fulfillment to its membership.

UNLV’s lifelong learning program joined the Osher network in 2006 and has grown with the foundation’s guidance. OLLI at UNLV thanks the Bernard Osher Foundation for its continued support including more than $2 million in endowment funding.
About OLLI at UNLV

The Osher Lifelong Learning Institute at the University of Nevada, Las Vegas (OLLI at UNLV) is a member-driven learning community of more than 1,800 retired and semi-retired adults. Our members continue a lifetime of learning by contributing to a program rich in content, shared interests, and life experiences. In addition to our regularly scheduled classes, OLLI at UNLV offers a variety of special events, shared interest groups, and other member activities. Prior education is not a requirement for the OLLI program, simply a desire to learn and contribute to the classroom experience, as there are no tests, grades, or homework. Each of our classes is led by OLLI at UNLV volunteers who bring a lifetime of personal and professional experience and passion to their classrooms. As OLLI at UNLV instructors are volunteers, the opinions expressed in each class are their own. Feedback on instructors is welcomed by the OLLI at UNLV Educational Programming Committee. Scheduled classes cover a wide range of topics at both our UNLV Paradise campus and multiple satellite locations. For more information about OLLI at UNLV and how you can take advantage of the $90 spring semester membership, please call 702-774-OLLI(6554).

STEERING COUNCIL CHAIR’S MESSAGE

On behalf of the Steering Council, our director, and the administrative team, welcome to the spring 2020 semester. Everyone is looking forward to another exciting 10 weeks of classes, camaraderie, and coffee.

I’d like to emphasize OLLI at UNLV’s importance to the greater Las Vegas community. Currently we reach nearly 2,000 members throughout the greater Las Vegas valley, and membership increases every semester. We accomplish this by offering interesting and relevant classes to our student body. Qualified volunteer instructors present nearly 100 courses a semester at our primary facility at the Paradise campus and at several satellite locations around the valley.

The key word here is “volunteer.” While we have a director and an administrative staff who keep the organization running (and very well, I might add), it’s our volunteers that are the backbone of OLLI at UNLV. Among the many duties our volunteers perform, one of the most important is determining the number and type of classes offered each semester and ensuring that volunteer instructors (like yourselves) commit to presenting them. We are always on the lookout for new classes and new volunteer instructors, and yes, this pitch is aimed directly at you. If you have an expertise you’d like to share; if you have an interest in presenting one of our already-prepared Great Courses; or even if you think you might be interested in becoming a presenter, contact olliatunlv@unlv.edu. We have the time, the interest, and the people to help you make your class a success.

October 2019 Phone-a-Thon

For six years, the Phone-a-Thon has been a valuable asset for growth for OLLI at UNLV and our members. This year, we raised over $23,000 during the Phone-a-Thon and Rebels Give due to the generosity of more than 300 donors. 35 volunteers made calls, sent thank you cards, and helped out behind the scenes. These donations enhance the OLLI member experience and demonstrate a commitment to our lifelong learning community and its continued success. The annual fundraiser is a unique collaboration among OLLI’s membership, the administrative team, and the UNLV Foundation, helping cement the relationship between our institute and the university as a whole.

In addition to serving as OLLI at UNLV’s largest fundraiser, the Phone-a-Thon also serves as a strong community builder for the members and administration.

For our volunteer leaders, the Phone-a-Thon is a chance to talk to members they have not seen in a while, as well as get to know new members and listen to their experiences.

These donations have had a tremendous impact on our learning community both in and out of the classrooms. Most recently, Phone-a-Thon donations have provided the renovation of our coffee room and computer lab, the addition of our member library, classroom tables for room 133, technology upgrades, and member scholarships.
OLLI at UNLV and Philanthropy

Membership in OLLI at UNLV is far more than just the classes we offer. Being a member of our lifelong learning community is a way of life. Our institute is an important resource for the Las Vegas community, supported by the Bernard Osher Foundation, UNLV, and most of all, our members. We invite you to leave your mark on our learning community in one of several ways.

Annual Giving
Through their generous annual donations our members demonstrate their appreciation for programming, benefits, and all our learning community has to offer. Whether taking only one class or a wide variety, participating in volunteer experiences, or becoming involved with one or more of our shared interest groups, we thank our members for their participation. Our annual fundraising efforts allow our members a chance to show the importance of our learning community in their lives, provide for improved member experiences through the enhancement of our shared spaces and programming, and demonstrate to the Bernard Osher Foundation that we are invested in supporting our own institute. Donations can be made easily and securely at anytime throughout the year online at olli.unlv.edu/support or at the OLLI at UNLV office on the Paradise campus.

Planned Giving: Leave a Legacy
A planned gift is a great way to support OLLI at UNLV’s sustainability based upon personal circumstances and philanthropic goals. Planned giving offers an opportunity to experience personal satisfaction of making a significant gift today that will affect the growth and stability of our lifelong learning community for years to come. These planned gifts can be a bequest or charitable gift annuity that supports our institute while securing a lifetime of income for the donor and/or another beneficiary. University benefactors receive the honor of becoming a member of the Heritage Circle at UNLV. Members of this donor group are invited to special UNLV events and receptions throughout the year and are sent exclusive university publications.

Contact Rob Levrant, OLLI at UNLV Director at robert.levrant@unlv.edu or 702-774-6554 for more information.

We are delighted to have you with us as a member of our learning community. Our member instructors help their peers to continue a lifetime of learning by leading classes rich in content, shared interests, and life experiences.

OUR VISION
OLLI at UNLV is an iconic, self-sustaining and accessible community of lifelong learners. Our nationally recognized, volunteer-based institute offers a welcoming and dynamic member experience to a diverse population of retired and semi-retired adults throughout Southern Nevada and beyond.

OUR MISSION
The mission of OLLI at UNLV is to challenge the mind and stimulate the spirits of retired and semi-retired adults by offering learning activities designed to enhance understanding of the world—its historic, cultural, and social aspects—utilizing a variety of non-credit academic learning formats.

OLLI: AN INTEGRAL PART OF UNLV
The Osher Lifelong Learning Institute is an integral department within the university’s Division of Educational Outreach. Throughout the years, our program has been sustained in part through generous support of the university. This includes in-kind support from the division’s operations and marketing units, as well as UNLV’s Office of Information Technology, Purchasing and Finance, and the Disability Resource Center, just to name a few. Under the shared governance model, our advisory Steering Council and committees collaborate with the OLLI administrative team to set policy, support members, and provide an exceptional lifelong learning experience.

COURTESY AND CIVILITY
Please remember that OLLI at UNLV classes are a shared experience in our learning community. Remember to silence your cell phones, and be aware and respectful of your peers. In the spirit of fostering understanding, each OLLI member is encouraged to share opinions and ideas with a mutual respect for each member’s experiences, ideas, value systems, and beliefs. We encourage participants with all points of view to attend and become engaged through discussion and civil debate.

PRINCIPLES OF ADULT LEARNING

OLLI AT UNLV RUNS ON VOLUNTEER POWER!

Volunteerism is a cornerstone of our lifelong learning community. OLLI at UNLV’s enthusiastic volunteers create a shared passion and commitment to the success of our program, and provide mutual personal growth and satisfaction for all members of our learning community.

At OLLI at UNLV, we understand the importance of volunteerism. Research has shown that volunteering at least two hours per week can provide a sense of purpose, lower the incidence of depression, heart disease, and overall bad health, and the benefits can last decades.

Our members develop curriculum, instruct classes, work on committees, as well as maintain our member spaces including the coffee room, library, and computer lab! All members are encouraged to share their time and passions with their OLLI at UNLV peers. Whether you choose to volunteer just once or commit to a semester long position, your contribution will have a positive impact for our vibrant lifelong learning community.

For more information on how you can contribute as a volunteer to your lifelong learning community, please contact the Volunteerism & Community Outreach Committee at ollivolunteer2017@gmail.com!

Mental Health First Aid teaches you how to identify, understand, and respond to signs of mental illnesses and substance use disorders. This training gives you the skills you need to reach out and provide initial support to someone who may be developing a mental health or substance use problem and help connect them to the appropriate care. The training is provided in 8 one-hour sessions plus Naloxone training. Each person who completes all 9 hours of the training will receive a certificate of completion.

CARDS, CARDS, CARDS

Card making: it’s a little work of art that you can send to another person. A handmade card feels extra personal because it was made by the giver’s own hand. Each week will bring something new as we develop some very imaginative card making techniques. We will work with polymer clay to make dimensional cards as well as use collage and watercolors to make these little mixed media works of art. And yes, we will even learn to fold our own envelopes. Just imagine how happy someone will be to find one of your cards in the mail! For this class, you will need scissors, card-stock of various colors, paste, water-soluble paints, markers, and various papers of your choice. We recommend double-sided sticky tape and x-acto knife or cutting tool and cutting board.

Both she and her husband Stephen grew up in Maine and return to the rock-bound coast at least once each summer. A native of Germany, Karin Serra has been a member of OLLI for many years. A teacher all her life, she started in elementary education and later found herself involved in the fashion industry where she had a chance to visit and explore Southeast Asia. Retired in Las Vegas, she is very active teaching workshops in the arts and crafts.

TAI JI QUAN: MOVING FOR BETTER BALANCE

Tai Ji Quan: Moving for Better Balance® is a research-based balance training regimen designed for older adults at risk of falling and people with balance disorders. Although its origin can be traced to the contemporary simplified 24-form Tai Ji Quan routine, the program represents a significant paradigm shift in the application of Tai Ji Quan, moving the focus from its historical use as a martial art or recreational activity to propagating health by addressing common, but potentially debilitating, functional impairments/deficits. Students are encouraged to wear loose, comfortable pants and top; flat-soled shoes. Class extends through summer semester.

**Great Novels You Never Knew Adapted for Film**

Motion picture adaptations of books too often disappoint those of us who love good films. That is not to say it's impossible to find book-based films that are thought-provoking, entertaining, emotionally engaging, or informational enough to work well on their own. It is those rare film adaptations that will be presented in this course. In many cases, both printed and film versions of the same story are together able to give us insight into the way people lived in other places and times. Although this course has emphasized classic films that withstand the test of time, we will also look at some unrecognized, nearly forgotten gems. For example, rather than view another version of Arthur Miller’s classic Death of a Salesman, we will look at Albert and David Maysles *Salesman* (1969). This is cinéma vérité about a team of salesmen, urged on by their aggressive manager, trying to sell Bibles door-to-door to Catholics mostly reluctant to buy. *About a Boy* (1998) is comedy about today’s hook-up culture, focusing on a vacuous bachelor living in a small flat in London, devoting himself to music, video recordings, random drives, television quiz shows, and dining out. *The Swimmer* (1968) presents a middle-aged man “in a world of hurt,” clad in swimming trunks, traveling across his suburban town from pool to pool in his friends’ backyards. In *The Rainmaker* (1956) Burt Lancaster gives a bravura performance of a con man who offers hope to a southwestern town in 1913. *The Bicycle Thief* (1948), in Italian neo-realism style, turns a simple story into a meditation on the human condition. *All About Eve* (1950), an acknowledged classic featuring Bette Davis, takes a witty and devastating look at the love and power struggles behind the stages of Broadway and Hollywood.

**Monday, February 3 - April 13**

Instructor: Neal Graham retired in 2013 after 30 years as an officer and principal in a closely-held commercial real estate company in Manhattan. His first choice career, since he majored in English at Columbia University and the University of Vermont, was always to teach at the college level. Ever since the early 70s when he found it necessary to leave academia for the business world, he has wanted to get back to the classroom. At OLLI at UNLV he found students with far greater depth, on average, than he ever found teaching twenty-somethings four decades ago.

**Recreational Card Playing**

**THE RIGHTEOUS MIND**

The 2012 social psychology book by Jonathan Haidt, *The Righteous Mind: Why Good People are Divided by Politics and Religion* will serve as a springboard for examining ways people make assumptions and decisions, and why we are inclined to divide into antagonistic camps of religion and politics. The book—and the class—has three parts. Each part presents one major principle of moral psychology. Part I suggests intuitions come first, strategic reasoning second. Part II proposes there is more to morality than harm and fairness. Haidt’s Moral Foundations Theory will be introduced along with the moral intuitions related to liberty, loyalty, authority, and sanctity. Part III is about morality binds and blinds. In the book’s introduction, Haidt writes, “My hope is that this book will make conversations about morality, politics, and religion more common, more civil, and more fun, even in mixed company.”

**Monday, February 3 - April 13**

**VINTAGE TELEVISION: LOOKING AHEAD TO YESTERDAY**

When thinking of “vintage television” from the 1950s, immediately people remember *I Love Lucy*, *The Honeymooners*, *Gunsmoke*, *Lassie*, *What’s My Line?* and *The Mickey Mouse Club*. During those years, however, there were numerous other programs on the air—programs you rarely hear about today. Now, you have a fresh chance to see many of these forgotten telecasts. Each week a different genre from that era will be presented such as game shows, situation comedies, variety performances, detective dramas, kids shows, westerns, mysteries, and more. From shows that faded from memory to popular programs that stood the test of time, take this opportunity to relive the early days of television and maybe even catch up on what you might have missed.

MOHAMMAD & THE QURAN: THE MESSENGER & THE MESSAGE
Seek an understanding of Islam by studying the life of its Messenger. Prophet Mohammad is undeniably one of the greatest figures in human history even to the non-Muslim, perhaps more today than ever. Even apart from any religious belief or faith, there are immediate benefits to be found in learning about the prophet of Islam. Prophet Mohammad is described by Muslims as the walking Quran as his life, actions, and words were an embodiment of the holy Quran. With all the Islamophobic rhetoric and criticism of Shariah law coming from some American leaders, most Muslims assume the United States does not have a clear understanding of—or respect for—Islamic history and traditions. But did you know, in the 1930s a frieze installed on the facade of the U.S. Supreme Court building included Mohammed as one of history’s 18 great lawyers? A thinking citizen of the world can hardly develop a rational and mature social consciousness without considering the life of the prophet, the message he brought, and his importance to the Muslim community. Having knowledge of the life of Prophet Mohammed is a necessary step toward the understanding and tolerance without which world peace is inconceivable.

Dr. Eddebarh has been a social activist and religious leader. He has traveled around the globe and has special interest in educating the Muslim community about the importance of Masjid Al-Aqsa. He has worked since his arrival to the U.S. in 1979 on promoting accurate understanding of Islam and Muslims. His passion is to work with others in the faith community to nurture a pluralistic environment.

**AMERICA'S ELECTION SYSTEM**

As Americans, we have been through two of the toughest elections in recent memory. After 2016 and 2018, the country sometimes feels more dangerously divided than at any time in the last 50 years. The purpose of this class is to explore the American election system itself and to consider its strengths and its weaknesses. We will look at our election system from a historical perspective, exploring what our forefathers envisioned and how that vision has changed over time. We will also track the controversies and court decisions that will impact our elections in the short term and the long term.

The United States’ electoral system is complex, decentralized and administratively driven by the states and their counties, with diverse approaches to voter registration, ID requirements, and the delivery of voter services. Polarized content on broadcast, print, and social media has reopened long-buried wounds of divisiveness on every front. Foreign bots and trolls leave us feeling confused as to how to sort out facts from fiction. With our unique Electoral College system for the election of the president, some question whether we abide by the one voter/one vote principle and whether it is time to abandon it. The resurgence of voter suppression tactics, gerrymandering, and out-of-control campaign financing may have some of us questioning our confidence in America’s electoral process. The obstacles seem insurmountable, but this class will explore and discuss the good news as well as the bad. Our system is flawed, but it is also strong. In the end, we will refortify our faith that as voters, we can make a difference.

**Tuesday, February 4 - April 14**
**TIME:** 9-10:45AM

She has also participated in the development of international standards for democratic elections. She was Deputy Director for elections in Alaska in charge of election operations, procedural development, federal compliance, and public information. She has also consulted in several states and counties in the United States and has been a speaker and facilitator at many election-related conferences domestically and abroad. She has offered this course at OLLI for two semesters, updating the course to meet current events and controversies.

**PARABLES OF TODAY: USING POP CULTURE TO UNDERSTAND CHRISTIANITY**

Jesus used stories, “parables,” to help his followers remember his teachings. His tales of The Good Samaritan and The Prodigal Son are considered two of the most popular short stories of all time. Intentionally or not, all forms of pop culture contain lessons which help us understand Jesus’ teachings today. Members will not only enjoy watching these examples (popcorn has appeared in the past and multiplied, like Jesus feeding the 5,000), they also will learn how to discern parables on their own.

QUAKERS, SHAKERS & COMMUNE-MAKERS: THE QUEST FOR UTOPIA

Throughout human existence, we have dreamed of a more perfect society—a blissful utopia of plenty, justice, and happiness. In this course, we will survey utopian and dystopian literature, as well as fascinating real-world utopian experiments. Whether the goal of the community was religious or secular, sober or bizarre, their stories of hope and struggle reveal both the best and the worst of human nature. You will begin to ask yourself if a perfect human society is even possible, what your utopia would look like, and whether one person’s utopia is another person’s nightmare?

In her free time, she has traveled to remote locations all over the globe, on all seven continents.

BSF: BALANCE, STRENGTH & FLEXIBILITY

Yin yoga is a meditative practice in which yoga poses are held for 3-5 minutes at a time. This practice integrates mindfulness, as each pose is a meditation. Gradual and complete stretches build pliability in connective tissues, most notably the fascia. Stretching along the acupressure meridians will improve the flow of energy in asana practice and allow you to sit comfortably for longer periods. Yin yoga is steady, passive, provides balance, and reduces stress—all excellent for the senior period of life.

SOULCOLLAGE®: AN INTRODUCTION

This will be an introduction class learning about a process called SoulCollage®. This is just one of many ways to access our imagination and intuition with a healthy curiosity about ourselves. You do not need to be an artist. This is not about creating art, although it turns out to be just that. This is about learning a way to access parts of ourselves through finding images from magazines and books, and collaging them onto a 5x8 card. Once you make a card, you will begin to learn how to discover what the card has to say. You will learn to read the card, gently tapping into your inner wisdom. Many find that the process holds many valuable surprises.

Tuesday, February 4 - April 7 10 week class
TIME: 9-10:45AM

Instructor: Debra McGuire was introduced to SoulCollage® at OLLI at UNLV in 2017. She felt so empowered by the process that she completed facilitator training in February 2019. She team-taught SoulCollage®: An Introduction this fall, and is now ready to branch out on her own. McGuire enjoys learning many healing modalities; and is currently enrolled in EFT facilitator training. She is a Southern California native who moved to Las Vegas in 1989, enjoying a fulfilling 25-year career with the Las Vegas-Clark County Library District. Along with her love of lifelong learning, McGuire enjoys quilting, painting, hiking, reading and spending time with her entertaining Dachshunds.

PASTEL DRAWING
Brilliant color that does not yellow with time, a velvety matte surface unlike any other medium, dry color that is capable of a range of effects—these characteristics are distinctive to pastels. Pastel drawings and paintings are stunningly beautiful, with rich textures and deep colors. Pastel's look and feel results from the medium's composition, a blend of finely-ground pigment and white extender coalesced with a minimal amount of binder (the latter merely enough to enable the artist to grasp the stick of color between the fingers yet crumble when stroked across a support). It is this powdery property that accounts for the delicate surface of works executed in pastel. Be prepared to get dirty and do wear old clothes or a cover up!

THE AMERICAN WEST: HISTORY, MYTH & LEGACY

The American West has been largely romanticized in the American psyche, reduced to stereotypes of cowboys, miners, dusty towns, and Manifest Destiny. Where is the line between myth and actual historical fact? How has our perspective of America’s westward advance evolved over three centuries? The west represented to its migrants a place where they might find land to farm, minerals to mine, or freedom from religious persecution. It is also a land of climatic extremes, with extreme summer heat and a dearth of water in the Southwest, and forbidding, snowy winters across the Rockies, Sierras, and Cascades. Come on a journey to re-learn the history of the American West as the majority of you are migrants to this area.

At OLLI at UNLV he has taught courses in physics, photography, Nevada history, and black holes, climate change, and nuclear energy as an interim solution to reducing greenhouse gases.

Lively, engaging discussions are a cornerstone of OLLI at UNLV. Open minds and hearts help us grow intellectually and allow us to better understand experiences which differ from our own. Please help us foster a classroom environment of civility where all students feel heard and respected. Feedback on your classroom experience is welcomed and encouraged. The spring semester will include the structure and function of the respiratory, digestive, excretory, and endocrine systems. WHAT TO BELIEVE: CRITICAL THINKING & THE SCIENTIFIC METHOD
Scientific Skepticism gets a reboot for the era of “fake news.” We will look at how we think and analyze information to reach conclusions about what is true or real. We will explore techniques used by those who wish to influence us to buy their products or ideas. The goal is to gain confidence evaluating information and coming to your own rational conclusions. Each week we will look at a new topic. For example: What is Fake News? Are GMOs harmful? Are ghosts real? Do vaccines cause autism? Are crop circles created by aliens? Are eyewitnesses reliable? Why do people continue to believe nonsense even when presented with the data? We will do demonstrations whenever possible. There will be a strong emphasis on psychological processes and the scientific method. We will also look at how logical fallacies can lead us astray.

Tuesday, February 4 - April 14 10 week class

GLOBALIZATION & THE NEW WORLD ORDER

Globalization for the last couple of decades has become a buzzword and promoted at the highest levels as inevitable, economically beneficial, and a quantum advance in civilization itself. The New World Order has been a long-term, largely secret program, alternately denied and promoted. Essentially, it is characterized by a world government focused on globalization, intended to supersede the authorities of the national governments of its members. An undeniable effect of globalization in America has been the hollowing out of the industrial sector, namely the loss of manufacturing jobs to lower cost overseas labor overseas. Some view globalization as a good agenda overall, in that it has enriched the world in science and culture and succeeded in lifting many people out of poverty. Others, however, believe its main effect has been the control and destabilization of governments by multinational corporations. Mainstream topics to be considered will be: Gorbachev and the death of the Soviet Union; American capitalism; utopian socialism and Owen’s New Harmony experiment; the Bolsheviks—Lenin, Trotsky and Stalin; and the illusions of Swedish socialism. More speculative topics to be discussed: making sense of the hippies; who created the baby-boom generation and why; Evergreen College, ANTIFA, and Cultural Marxism; Agenda 2030—bankrupting America one utopian city at a time; Horace Mann, John Dewey, the NEA and the intentional dumbing down of America; feminism; multiculturalism; gender dysphoria; postmodernism; and artificial intelligence.

Wednesday, February 5 - April 15  
TIME: 9-10:45AM 
10 week class

Instructor: Neal Graham retired in 2013 after 30 years as an officer and principal in a closely-held commercial real estate company in Manhattan. His first choice career, since he majored in English at Columbia University and the University of Vermont, was always to teach at the college level. Ever since the early 70s when he found it necessary to leave academia for the business world, he has wanted to get back to the classroom. At OLLI at UNLV he found students with far greater depth, on average, than he ever found teaching twenty-somethings four decades ago.

The OLLI at UNLV hiking group enjoys a variety of experiences including hikes in Red Rock Canyon, short park hikes on paved roads, and adventures along the Colorado River! In the spring, the OLLI hiking group also supports the OLLI & Friends group by participating in the Susan G. Komen Walk for the Cure. This shared interest group is a great way to see our beautiful Las Vegas valley and make new friends. To learn more, please email the group leaders at ollihikerslv@gmail.com.
“I am so thankful to friends who kept encouraging me to join OLLI at UNLV! I’ve connected with new people and learned so much. It’s a wonderful program! I encourage all retired folks to take advantage of this program!”

Create a new reality for daily living by redefining yourself and others as positive, powerful influences for a better today and tomorrow. Course content is inspired by the Conversations with God book series with a spiritual—but not religious—slant. **COMEDY: WHAT’S THE POINT?**

Someone once said, “All you need is a good laugh.” Discover some of the ways that humor can affect us. Comedy can make us feel nostalgic. It can make us think. Sometimes comedy can make us laugh even as it offends. But what, exactly, makes a comedy successful? We will share our perspectives on that very question as we view a range of films from across the comedy spectrum, from the romantic comedies of Hollywood’s golden age, to Charlie Chaplin’s political satire, to the boundary-pushing humor of Mel Brooks, and more recent experimentations with the genre. We will explore the role that comedy can play on both a personal and a cultural level.

**Wednesday, February 5 - April 15**

**TIME: 11AM-12:45PM**

Instructor: Danielle Hartnett is a published film reviewer. Hartnett graduated from the USC School of Cinema-Television, where she studied with renowned film scholar Drew Casper and blacklist filmmaker Abraham Polonsky. Her work-study job at the USC Special Collections Library was short-lived, as she spent too much time in the stacks of the Warner Bros. Archive, looking at movie stills of James Cagney and Humphrey Bogart. She recently taught a course on the history of the gangster film for OLLI at UNLV.
DEMENTIA: THE 800 POUND GORILLA AT THE DOOR

We are all touched by dementia—a condition that affects memory, thinking, behavior, and the ability to perform everyday activities. Chances are that at our age we either have dementia, are a caretaker to someone with dementia, or have a family member or friend who has dementia or takes care of someone with dementia. The number of people living with dementia worldwide is currently estimated at 35.6 million. This number is expected to double by 2030. An estimated 5.8 million Americans of all ages are currently living with Alzheimer’s disease, the most common type of dementia. Learn about the various diseases that cause dementia, local services that are available to patients and caregivers, ongoing research, effective therapies, what you can do to improve your brain health, important plans that need to be made as a patient and caregiver, as well as what it is like to work and live with dementia. We will hear from experts from leading-edge institutions such as the Cleveland Clinic: Lou Ruvo Center for Brain Health, the Alzheimer’s Association, the UNLV Department of Brain Health, and Nevada Senior Services. The driving motto for this class is “Knowledge is Power;” the more you know about dementia and its ramifications, the better you will be able to cope with it if you are diagnosed with dementia, cope with it if you are a caregiver to someone with dementia, and better understand what people with dementia or their caregivers are experiencing. Also you will come to understand that dementia is not an end to life. There are people who are living rich fulfilling lives even with a diagnosis of dementia.

Wednesday, February 5 - April 15 10 week class
TIME: 11AM-12:45PM

Instructor: Ed Ort started his career as a physicist working on a Mariner mission to Mars. He later gravitated to computer software, where he was a software developer, web content developer, and writer. He has a lifelong interest in medical topics. In fact, he seriously considered applying to medical school in his 30s. But he says “my wife, who is much more sensible than me, pointed out that going to medical school in your 30s, when you have a wife and two young children, is not the wisest decision in the world.” So, he decided to leave that to his next lifetime. That interest in medicine got passed down to his older son, who is a surgeon.

STAR TREK 101: VOYAGER

For Spring 2020 the Star Trek class will concentrate on the Voyager series. Star Trek is thought-provoking and insightful with stimulating morality plays, social issues, and nods to contemporary world forces that were at play. Voyager was the fourth in a series of six of an internationally-acclaimed franchise that is now fifty-five years into production. We will discuss writers, directors, producers, actors and behind-the-camera chaos. Mainly, it will be the story lines that are of brain-stretching interest. The series was able to push social boundaries and elude censors since the issues and problems belonged to “aliens.” Star Trek was a magnet for celebrities who saw their fame cemented into the entertainment industry with a role in an episode! Discussions, suggestions, point of views, opinions, and judgmental critiques will be part of the class. Be forewarned, our critiques often show no mercy. Live long and prosper...

Givens has written for publications such as The International Federation of Trekker, Starfleet, and Roddenberry.com. Attending conventions, being an avid collector of Star Trek memorabilia, and founding a local Star Trek club have also been part of her Star Trek hobby.
WOODSTOCK 1969

Officially known as The Woodstock Arts and Music Fair, the 1969 event attracted almost half a million spectators to a 600-acre dairy farm in Bethel, NY. The festival's line-up of artists and bands was awe-inspiring in its sheer breadth, depth, and appeal. Yet, incredibly, this iconic event almost never happened. A series of near-catastrophes conspired to derail The Woodstock Festival; but for the sheer perseverance and audacity of several key characters, the whole course of rock music history could have been drastically different. This course will cover the planning of Woodstock and the actual three-day event itself. The course will contain drama, humor, and even pathos, and will try to recapture those heady days of the hippie movement when young people really believed that they could change the world. It will also contain electrifying live footage of ALL of the bands and the performers who appeared.

Wednesday, February 5 - April 15  10 week class  
TIME: 1:45-3:30PM

She has written the mathematics curricula for three different school systems in New Jersey. She was also an assistant principal and guidance counselor.

JAZZ APPRECIATION

Build your knowledge and shared appreciation of jazz, one of America’s greatest art forms. Jazz Appreciation at OLLI blends lectures and documentaries on jazz history with discussions of the influence jazz had on popular music, guest speakers from the local jazz community, and of course our very popular live performances. The topic will be approached as a journey through the music world, highlighting the birth of jazz and how it continues to develop and evolve through time. Gain insight into the creative works and lives of the innovators of this music, and listen to examples of their work. Live performances arranged through connections with Las Vegas Jazz Society and local Las Vegas musicians always make this a vibrant, enjoyable course.

Wednesday, February 5 - April 15  10 week class  
TIME: 1:45-3:30PM

Instructors: Jazz singer Jonathan Karrant has played Las Vegas supper clubs, toured the states and Europe, and performed with some of jazz’s most accomplished musicians. He studied performance in New York City at the William Esper Studio, and music with Seth Riggs Vocal Method with Greg Enriquez in Los Angeles. He also studied privately under the direction of Marilyn Maye and Kurt Eling. A lot of what he had learned about singing has come with time, singing to audiences night after night. Sonia Feldberg is a published writer with B.A.s in communications and film studies and a M.A. in cultural communications from UNLV. Feldberg grew up in a musical home; her father was a concert violinist with the Detroit Symphony and her mother an opera singer. She played multiple instruments, but dance and live music are her passion. Living in Las Vegas for 43 years her fondest memory is tap dancing and teaching for tap legends Maceo Anderson and Prince Spencer of the Step Brothers. Jazz was always the genre of choice in her home and multiple dance routines along with the American songbook.

SEINFELD

Our study of Seinfeld, the show about nothing, will continue with episodes from season 8, including favorites “The English Patient,” “The Yada Yada,” “The Muffin Tops,” and 20 other memorable episodes. Seinfeld and its cast members received several Emmys during its nine-year run as one of the best television shows of all time. Seinfeld was based largely on inconsequential small things in everyday life. In reality, it reflected the 1990s in America, making the reference a “show about nothing” a misnomer. In addition to viewing episodes, related materials will be provided for review and follow-up discussions concerning the themes and issues presented.

Wednesday, February 5 - April 15  10 week class  
TIME: 1:45-3:30PM

Instructor: Jim Patton watched the Seinfeld series from its inception in 1989 through the final show in 1998. He still watches reruns, to his wife’s chagrin, whenever they air. He earned undergraduate and graduate degrees in Minnesota prior to packing the family and moving to Thailand to take a job with the U.S. Air Force. He set up off-duty education programs at various bases and conducted classes in test preparation and interviewing skills.
THE ART OF DRAWING FOR BEGINNERS

To begin the class journey, show up ready to take in the information that you can use in any art project that you choose to try. We will cover the basic strokes, the use of a math compass, one-point perspective, and the grid. At the end of the term, you will be able to apply all of the methods that you have learned in the class. The supplies needed for the class will be discussed during the first class meeting.

Wednesday, February 5 - April 15 10 week class
TIME: 1:45-3:30PM

Law has been honored with several notable awards for Las Vegas, North Las Vegas, and Henderson. He is most proud of a project displayed at Las Vegas City Hall on the walls of Carolyn Goodman’s private gallery. Law’s unique teaching style and emphasis on creativity make his class an ever-changing work in progress. He encourages class participation and has a strong focus on self-expression. Rita Ballejos has lived in Las Vegas for 18 years. She retired as a master cook at various hotel/casinos along the Las Vegas Strip. Since retirement, OLLI at UNLV has been her new passion to give and share her wealth of self-expression for art. For the past five years she has been taking various art courses at OLLI at UNLV and has become well-known as an artist in the OLLI at UNLV art community. With her newfound knowledge as a multi-media artist, it is time for her to share her special love for pen and ink.

WHAT MAKES A BOOK OR AUTHOR AN AMERICAN CLASSIC?

What does the phrase “Classics of American Literature” conjure up for you? Old? Traditional? Staid? In the Great Courses lecture series upon which this course is built, professor Arnold Weinstein of Brown University suggests classics are “neither innocuous or asleep; ...they have the power to unhinge us.” Stories become classics because their ambiguities and insights remain relevant and continue to challenge us. This course will highlight selected American authors in order to plumb their depths, extend our limits, and internalize a personal knowledge of these works. You may gain new insight into an old friend or discover an author not in your repertoire previously.

Wednesday, February 5 - April 15 10 week class
TIME: 1:45-3:30PM

When she retired in 2008 as a child welfare supervisor, she turned to OLLI at UNLV to continue her long-term interest in history and pursue her interests in art, literature, and music. Howard has co-facilitated classes in mythology, celebrating women, death and dying, and mindfulness. She is also a participant in the OLLI at UNLV hiking club and has volunteered for the film festival committee.

THE SCIENCE OF ENERGY: RESOURCES & POWER
Examine the science of energy and gain a balanced view of humanity’s energy resource options moving into the future. Humans’ need for energy continues to increase as the population grows and the levels of industrialization increase for much of the world. To provide these energy needs, humans draw on a wide portfolio of energy resources that include both renewable and nonrenewable sources. The first part of the course will present the fundamentals of energy from scientific and engineering perspectives, examining the forms of energy, the ways that energy converts from one form to another, and the unforgiving laws of thermodynamics. Then we will evaluate humans’ energy consumption for electricity, heat, and industrial processes. The 21st century will be exciting, with rapid changes in society that are likely to make the 20th century look dull in comparison, but whatever happens will require lots of power. Fossil fuels and nuclear fission dominate our fuel mix for now, but moving forward how quickly will the world progress to renewable energy sources?

COUNTRY MUSIC

Country music is completely and totally American and has been defined as “three chords and the truth.” The genre has roots in blues, jazz, hillbilly, and religious music, and over the decades its sound cross-pollinated with rock and pop. Country music conveys human emotions simply and succinctly--like, “Don’t come home drunk with lovin’ on your mind,” “Today I stopped lovin’ you,” “Bobby shared the secrets of my soul...she kept me from the cold,” and many, many more. Country music has slipped into our national psyche; even casual fans can, no doubt, identify many songs and performers. Using Ken Burns’ 8-part documentary as a guide, we will listen to performances from across the decades and discuss the genre’s evolution.

GREAT ACHIEVEMENTS IN ASTRONOMY

Great Achievements in Astronomy is based upon the book by Charles Murray titled Human Accomplishments in which the author covers 20 different fields, selecting 20 great geniuses in each field. In astronomy we always have to look back to the great figures of the past, the ones that showed the way. We will start in antiquity with Aristotle and Claudius Ptolemy, the men who established the initial paradigm for the solar system--a paradigm which lasted over 1400 years. Then, we will cover the men who destroyed that paradigm--Nicholas Copernicus, Tycho Brahe, Johannes Kepler, Galileo Galilei, and Issac Newton. All these philosophers and scientists made important contributions to astronomy but their environments and personal lives are not very well known. This course will cover those aspects and will take us into areas as far afield as witchcraft (Kepler’s mother), alchemy (Tycho), and the Inquisition (Galileo). You may find it hard to reconcile their attitudes, practices, and viewpoints with our modern views. But, it is unfair to judge men of the past by the standards of the present. The goal of this course is to appreciate what these figures achieved in astronomy, and understand why their achievements were so ground-breaking.

**SHAKESPEARE: MARY’S FAVORITE PLAYS**

This term we will study three different Shakespeare plays based on real-life leaders. *Richard III* grabs us from the magnificent opening soliloquy. We sympathize with his hurts, understand his pain, we even wish him luck - until he plots the unthinkable. Since Elizabeth’s ancestor killed Richard, Shakespeare plays with history. *Julius Caesar* is at the peak of his popularity with the people. Yet forces are gathering against him. “Et tu, Brute” still rings today as a signal of treachery. It is Marc Antony who brings magic to the play and vengeance to the plotters. Although Caesar is the subject of the play, it is Brutus we study and follow as he tries to live with his decision to join the plotters. *Antony and Cleopatra* is a love story, a history of Rome during turbulent times, and a clash of two cultures - Rome and Egypt. It follows the murder of Caesar. Marc Antony and Octavius Caesar now jointly rule the Empire—an uneasy alliance that will soon end, as will Antony and Cleopatra’s tempestuous love affair.

**WILD ABOUT WILDER**

Billy Wilder had a long, successful career as both screenwriter and director. This course will present the life and filmography of one of the most brilliant and versatile filmmakers of Hollywood’s Golden Age. Wilder broke into films as a screenwriter in 1929 and wrote scripts for many German films until Adolf Hitler came to power in 1933. Wilder emigrated to the U.S. as he realized his Jewish ancestry would cause problems. Although he spoke no English when he arrived in Hollywood, Wilder was a fast learner and thanks to contacts such as Peter Lorre he was able to break into American films. His partnership with Charles Brackett started in 1938 and the team was responsible for writing some of Hollywood’s classic comedies, including *Ninotchka* (1939) and *Ball of Fire* (1941). As a producer-director partnership the two turned out such classics and award winners as *Five Graves to Cairo* (1943), *The Lost Weekend* (1945) and *Sunset Blvd.* (1950) before the partnership dissolved. Wilder’s subsequent self-produced films became more caustic and cynical, notably *Ace in the Hole* (1951), though he also produced such sublime comedies as *Some Like It Hot* (1959) and *The Apartment* (1960). Wilder was active in filmmaking from 1929 to 1995, and died in 2002.

WHAT TO BELIEVE: CRITICAL THINKING & THE SCIENTIFIC METHOD
Scientific Skepticism gets a reboot for the era of “fake news.” We will look at how we think and analyze information to reach conclusions about what is true or real. We will explore techniques used by those who wish to influence us to buy their products or ideas. The goal is to gain confidence evaluating information and coming to your own rational conclusions. Each week we will look at a new topic. For example: What is Fake News? Are GMOs harmful? Are ghosts real? Do vaccines cause autism? Are crop circles created by aliens? Are eyewitnesses reliable? We will do demonstrations whenever possible. There will be a strong emphasis on psychological processes and the scientific method. We will also look at how logical fallacies can lead us astray. Of course, the final decision about what is real or true will always be left for each individual to decide for him/herself.

We will review the highlights of geography and history covered in Fall 2019 but quickly move to emphasize the modern countries, their populations, governments, regional ties, and current issues such as wars, elections, environmental concerns, wildlife recovery and conservation, and modern development for the burgeoning population.

Experience the poetry, the music, the art, and the storytelling of this Bohemian culture, the young rebels of their time, and the influences that sparked this modern Renaissance that remains an impactful presence in film, literature, art, and the politics of today.

EUROPEAN ART FROM CARAVAGGIO TO PICASSO

Connect the dots of European art influences that link the Renaissance with Mannerism, and that tie early modern art to masterpieces from centuries earlier. Using a Great Courses lecture series as a guide, see how Baroque works of Caravaggio and Bernini from Italy, Velázquez in Spain, and Rubens and Rembrandt in the Netherlands evolved into the Rococo style of Watteau, Boucher, and Fragonard. Examine the beginnings of modern European art with the work of David, which defined the Neoclassical style. Painting again evolved with the great Romantic artists Goya, Géricault, and Delacroix. Romanticism gave way to the Realism of Courbet and Manet, which in turn led to the Impressionist achievements of Degas and Monet. Study the reactions to Impressionism in the work of Gauguin, Van Gogh, and Seurat, and trace the influential contributions of Cézanne and Rodin. Conclude with a consideration of the early movements of the 20th century, including Fauvism, Cubism, German Expressionism, Dada, and Surrealism, and the pivotal role of the two towering geniuses of early modern art, Picasso and Matisse.

Reframe your thoughts so you can better appreciate all the great things happening in your life. Sometimes we get into a cycle of focusing on the challenges of our lives-health issues, money woes, family drama-and forget that we are also surrounded by positive things happening all around us. We can all use an hour or two during the week to focus on turning a negative into a positive, have some fun, meet new people, and nurture our creative writing talents. Guided writing prompts and interactions with peers will get your creative juices flowing. Write for 2-3 minutes on each prompt, and share your thoughts with the group if you are up for it.

“I was initially apprehensive about joining OLLI, but I was a newcomer to Las Vegas and wanted to meet people. My friend from exercise suggested I go to the open house. I joined the spring semester and was overwhelmed (in a good way!) from the beginning.

I appreciate the wonderful art and informative classes, excellent staff, and friendly students my age. I can honestly say I have found my hidden talents in art and music.”

Katherine Fleming
Member since 2017

“I love all the classes I’ve chosen over the past several years; the variety of subjects is amazing. And when I tell people where I go to school (some have never heard of OLLI!) they are really impressed. They just don’t know there is no testing or homework! YEAH!! I am so happy I have found OLLI.”

Sandee Feldman

“OLLI is a great program for retirees. The classes are varied and there is something for everyone. It is a good learning environment. The student body consists of persons from a broad background which makes the classes more interesting and their expertise adds to the learning process.”

Thomas Cornelia

“I thought I was too old to take a class. These classes are presented in a non-threatening way with no stress. I enjoy being in a group of people my own age. Next time I’ll take two classes! It’s informative and interesting without the stress or term papers.”

Nancy Parsons
Member since 2019

“If you can’t find a class at OLLI at UNLV that interests you, you may have been living off the grid for too long. There is literally something for everyone. Plus it is a great social activity and a chance to make new friends.”

Sandra Dibble

“I have an interest in art, history, and poetry but don’t make time on a regular basis to read in these subjects. I took classes dealing with both and now use the classes as a starting point to do research and read on my own.”

Oswald Fout
Member since 2019

“I joined to keep my mind “active” to avoid dementia! I really enjoy the variety of subjects and I’ve made some good friends through volunteering.”

FIRST DAY CHECK LIST

We suggest packing the following items before you come to campus:

• Membership handbook
• Notebook and pen if you choose to take notes in class
• Packed lunch, if you will be on campus during the 12:45-1:45pm lunch hour.

Arrive about 30 minutes early to familiarize yourself with the campus and to enjoy a cup of coffee in the break room before class begins.

PARKING

An OLLI at UNLV parking permit is included with your paid membership. The pass must be displayed on the passenger side of your front windshield, with dates and permit number clearly visible to all university staff. A lost parking permit may be replaced in Building 100 for $25. The OLLI at UNLV parking permit allows you to park in any “student” spot on any of the UNLV campuses. Be forewarned that parking in a “staff” or “reserved” spot will result in a ticket. All satellite locations have ample parking available.

If you require disabled parking accommodation, please visit the Information Desk in the Paradise campus 100 building. Bring your current state issued parking placard along with the letter received from the DMV and a form of identification to obtain the sticker allowing you to park in designated spaces on campus. This sticker must be affixed to your parking pass and displayed on the passenger side of your front windshield.

LOST & FOUND

Any found items will be held in Building 100 on the Paradise campus for one week. After one week, the lost and found items will be submitted to the UNLV Department of Police Services. To contact them for any lost items, please call 702-895-5795.
